

## **Artificial Lashes Evaluation**

### **Client Consultation:**

- Greet client and escort to work area.
- Assess the client's current style.
- Determine the client's preferences.
- Assess client's needs.
- Assess client's skin by performing a skin analysis to ensure that there is no inflamed, infected, broken, raised, or swollen skin in the area to be worked on; or an open wound or sore in the area to be worked on, infection, or infestation (i.e. lice) to prevent from safely performing service.
- Assess client's consultation form for any medications and products used within the last 72 hours. Consult on any known allergies.
- Consult with client on any facial surgeries within the last 3 months and if client under physicians' care.
- Assess if the client is prone to cold sores or fever blisters.
- Assess if the client has used exfoliating or lightening agents with in the last 72 hours. (AHA's, BHA's, hydroquinone, etc.)
- Assess facial injections within the last 3 weeks. (Botox, or Hyaluronic fillers)
- If client is free from the above the student moves forward with procedure.

### **Wash Hands Procedure:**

- Wet hands with running water.
- Apply liquid soap.
- Wash palms to the end of wrist, back of hands to the end of the wrist, each finger, and thumb.
- Wash both hands while interlocking fingers.
- Rinse thoroughly with running water.
- Dry with a clean towel or disposable towel.

### **Tools/Supply Set up:**

- Gloves
- Headband/hairnet
- Cotton Swabs
- Cotton pad
- Small scissors
- Tissue
- Tweezers
- Table Paper cover for the bed
- Paper drape (Webbies)
- Disposable Mascara Wand

### **Products needed:**

- Oil-free eye makeup cleanser
- Antiseptic lotion
- Lashes
- Lash glue

### **Equipment needed:**

- Equipment cart
- Equipment cleaner
- Facial bed or chair

### **Preparation:**

- Disinfect work station, bed and equipment using a disinfectant wipe (following manufacturer's instructions)
- Dispense products needed for the service.
  - Prepare disposable portion cups for each product with a portion of product by opening the top of the container and ensuring the tip of the nozzle does not come into contact with the disposable portion cup/tray or remove product with a disinfected or clean single use spatula. Close the lid to the product and set the portion cup/tray on the tray.
- Place disposable table paper on the disinfect bed

### **Client Preparation:**

- Have client disrobe appropriately for the service.
- Help client onto the bed.
- Place the hair net and head band on the client's head to cover the hair and ears completely.
- Place the rolled towel under the client's neck to support the head of the client.

### **Washing hands Procedure:**

- Wet hands with running water.
- Apply liquid soap.
- Lather and Rub palms to the end of wrist, back of hands to the end of the wrist, each finger, and thumb for 20 seconds.
- Rub both hands while interlocking fingers.
- Rinse thoroughly with running water.
- Dry with a clean towel or disposable towel.

### **Service Performance:**

- Properly drape client and prepare for service.
- Apply gloves.
- Double brace throughout this procedure while working around the eye area
- Use a cotton pad moistened with the oil-free makeup remover or cleanser to remove any makeup from the eyes.
  - Retrieve needed products from disposable portion cup/tray with a disposable spatula and apply to cotton pad.

- Wipe the eye area working in a downward sweeping motion to clean lashes and lids, with 3 passes. Clean under eye area from outside corner to inside with 3 passes for each eye. Take caution not to pull or tug on the eyes. Repeat if necessary.
- Discard cotton pad in waste receptacle.
- Using the disposable mascara wand, gently brush the client's eyelashes to ensure they are clean
- Discard disposable mascara wand in waste receptacle.
- Measure the width of the artificial lash by placing just above the top of the eyelid
- Securely grasp the artificial lash to mark any excess width between the fingers
- Lift the lash away and use the scissors to trim off the excess
- Discard any excess lash in the waste receptacle
- Verify the measured lash is the correct width
- Using a disposable brush apply lash glue to the base of the artificial lash
- Carefully, place the measured and trimmed lash directly on top of the existing natural lashes lining up the bases
  - Begin placement at the shorter side of the lash and carefully secure at the natural lash base.
- Keep the lash still and in place for 4-5 seconds to allow the hold to become secure.
- Repeat on the opposite eye.
- Use a cotton pad moistened with the antiseptic lotion to close the follicles.
  - Retrieve needed products from disposable portion cup/tray with a disposable spatula and apply to cotton pad.
  - Wipe the eye area working in a downward sweeping motion to clean lashes and lids, with 3 passes. Clean under eye area from outside corner to inside with 3 passes for each eye. Take caution not to pull or tug on the eyes.
- Discard cotton pad in waste receptacle.

#### **Post Service:**

- Client follow up: Discuss maintenance and after care.
- Single use items are discarded.
- Place implements in a closed container labeled "To Be Disinfected".
- Place cape and used towels into closed container until laundered.

#### **Work area cleaned and disinfected:**

- Identify proper cleaning agent and reads manufacturer's directions.
- Follow manufacturer's directions for mixing/usage
- Wipe work station/area with cleaning solution, to remove debris.
- Identify disinfectant that is bactericidal, viricidal and fungicidal; EPA approved for use in salon setting.

- Follow manufacturer's directions for mixing and/or using appropriate aerosol disinfectant.
- Disinfect electrical equipment stored in clean area separate from other implements.

Remove gloves.

**Wash hands.**

A score must be achieved that is set by the schools grading standards to pass this evaluation plan.
