Tools/Supply Set up:

- | | |
|---------------------------------|------------------------------------|
| • Head band | • Spatula |
| • Hairnet &/or head covering | • Brow comb or mascara wand |
| • Hand towel | • Disposable Eyeliner or lip brush |
| • Disposable mixing product cup | • Cotton Swab |
| • Water | • Cotton pads |
| • Timer | • Protective eye pads |

Products needed:

- Cleanser or eye makeup remover
- Petroleum jelly or protective cream
- Lash tint and/or brow tint
- Table paper

Equipment needed:

- Magnifying Lamp
- Facial Bed
- Stool
- Tray

Preparation:

- Disinfect work station, bed and equipment using a disinfectant wipe (following manufacturers instructions)
- Check equipment to ensure all devices are in safe working order and plugged in to a working receptacle.
- Gather clean supplies needed for the lash & brow tint service, storing in a clean closed container.
- Dispense products needed for the service, according to client's desired shade for brows and lashes. Mix according to manufacturer's directions.
 - Prepare disposable portion cups for each product with a portion of product by opening the top of the container and ensuring the tip of the nozzle does not come into contact with the disposable portion cup/tray or remove product with a disinfected or clean single use spatula. Close the lid to the product and set the portion cup/tray on the tray.
- Drape Facial Bed using 1 fitted sheet, 1 flat sheet and 3 towels.
 - Place clean, laundered sheets down on disinfected facial bed, placing a towel horizontally at the head of the bed.
 - Lay a hair net and head band on top of the first towel, alone with a rolled towel to support the head and neck of the client.
 - Save the 3rd towel to lay across the clients' décolleté.
- Or use disposable table paper to drape the bed.

Client Preparation:

- Have client disrobe appropriately for the service.
- Help client onto the bed.
- Swaddle sheet (and blanket if needed) over guest; place 3rd towel over the décolleté.
- Place the hair net and head band on the client's head to cover the hair and ears completely. Place the rolled towel under the client's neck to support the head of the client.

Washing hands Procedure:

- Wet hands with running water.
- Apply liquid soap.
- Lather and Rub palms to the end of wrist, back of hands to the end of the wrist, each finger, and thumb for 20 seconds.
- Rub both hands while interlocking fingers.

- Rinse thoroughly with running water.
- Dry with a clean towel or disposable towel.

Service Performance:

Prepare Brows and Lashes: (to remove makeup, natural oils, and debris)

- Apply cleansing product to Eye brows and lashes
 - Retrieve cleansing product from disposable portion cup/tray with a disposable spatula and apply to 2X2/pads or cotton rounds with eye makeup remover.
 - Place the eye pads on the client's closed eyes
 - Use a 2x2 or 4x4 moistened with a makeup remover to remove brow color.
 - Hold the opposite side of the brow, with the thumb of your free hand apply firm pressure and remove brow color from the outer corner to the inside.
 - Pat dry.
 - Repeat the step on the other brow.
 - Double brace while wiping the eye area working in a downward sweeping motion to clean lashes and lids, with 3 passes. Clean under eye area from outside corner to inside with 3 passes for each eye. Take caution not to pull or tug on the eyes.
 - Repeat if necessary.
 - Allow to dry for 2 minutes.
 - Discard disposable gauze pad in waste receptacle.
 - Brush brows in the direction of growth.
- Application of Protective Cream or petroleum jelly
 - With gloved hands, Dispense protective cream or petroleum jelly by opening the top of the container and ensuring no contamination of the container. Using a spatula dispense a small amount of product into product cup, close the top of the container. Place the used spatula into your 'to be disinfected' container.
 - **INSTRUCT CLIENT TO KEEP EYES CLOSED AT ALL TIMES.**
 - Apply protective cream using cotton swab directly around the brow area where you are tinting to protect the skin. Do not touch brow hair.
 - Discard cotton swab in waste receptacle.
 - Apply protective cream or petroleum jelly with a cotton swab directly under the eye area, ensuring not to get product on the lashes or in the eyes.
 - Discard cotton swab in waste receptacle.
 - Place protective pads under the eyes, over the protective cream or petroleum jelly as close to the lash line as possible.
- Application of Lash and brow tint:
 - Set time according to manufacturer's directions.
 - LASH TINT:
 - Dip cotton swab or brush applicator into the tint.
 - Remove excess from the cotton swab or brush applicator.
 - Carefully apply tint product to the lashes in a downward motion until lash are evenly coated. Ensure not to get product in the clients, eyes, nose or mouth.

- Process according to manufacturer's direction.
- Discard swab/applicator in waste receptacle.
- Remove lash tint product with a wet cotton pad without dripping water in the client's eyes.
 - Moving in a downward motion, with a light hand remove tint.
 - Repeat at least 3 times, to remove all tint product for the lash area.
 - Discard used cotton pads in waste receptacle.
 - Remove used under-eye pads and discard in waste receptacle.
 - Replace with new eye pads if need.
- **BROW TINT:**
 - Dip cotton swab or brush applicator into the tint.
 - Remove excess from the cotton swab or brush applicator.
 - Carefully apply tint product to the brows in the direction of hair growth and then in the opposite direction evenly coating the hair. Ensure not to get product in the clients, eyes, nose or mouth.
 - Process according to manufacturer's direction.
 - Discard swab/applicator in waste receptacle.
- Remove brow tint product with a wet cotton pad without dripping water in the client's eyes.
 - Moving in an outer movement, with a light hand remove tint,
 - Gently repeat, moving in the opposite direction.
 - Repeat at least 3 times, to remove all tint product from the brow area.
 - Discard used cotton pads in waste receptacle.

Post Service:

- Client follow up: Discuss maintenance and after care.
- Single use items are discarded.
- Place implements in a closed container labeled "To Be Disinfected".
- Place cape and used towels into closed container until laundered.

Work area cleaned and disinfected:

- Identify proper cleaning agent and reads manufacturer's directions.
- Follow manufacturer's directions for mixing/usage
